Pandoras Box version 8.9.1

Download instructions:

Pandoras Box version 8.9.1. This version concentrates on workflow and performance improvements. We are happy for your feedback support.pandorasbox@christiedigital.com.

This version mainly addresses issues with the NotchLC video codec and its alpha variant. It also adds and fixes automation commands.

- NotchLC: fixed: Avoid crash by improved lifecycle handling of NotchLC decoder cache.
- NotchLC alpha content is not played out with 8bit alpha @10 Bit color setting using a render engine with 8-bit backbuffer.
- Import of NotchLC from previously unopened folders in asset tree will recognize NotchLC as image sequence.
- Automation commands have been added to create command keys for Widget Designer device, serial and tcp link.
- Command AutoCreateSequence returns id of newly created sequence.

Before you begin any firmware/software installation, please ensure that you've read any accompanying documentation. Contact our technical support center or your Christie Sales Manager if you require more information or assistance.
