

**LET'S  
LEARN**

# GAIN PRODUCT KNOWLEDGE FOR PEAK PERFORMANCE

Christie University offers courses on product specifications, performance, operations, and maintenance to help you maximize the value of your investment in our high-quality projection solutions and display technology.

## Certification programs and courses

Learn about the latest Christie products and services while earning Certified Technology Specialist (CTS) Renewal Units from AVIXA. We offer a complete catalog of courses and certification programs covering everything from basic product information and technology, to installation and maintenance, to in-depth technology reviews.

## Knowledge sharing with experts

We design Christie University courses to help you get the most out of your Christie products and to support your professional development. You can feel good knowing that we collaborate with in-house and external industry subject matter experts when we create new courses and when we review and update the content of existing courses.

## eLearning courses

Our eLearning online courses are convenient and accessible and cover our full range of products. Our online courses are available 24/7, allow you to track your progress, and if you need to log off, you can pick up right where you left off when you log back in. You can find a sample of our product training videos under the "Christie University - product training" section of our YouTube channel here: [youtube.com/christiedigital](https://youtube.com/christiedigital). Many courses blend both in-class and online learning to provide an integrated experience.

## In-class training

Qualified and experienced instructors lead in-person training sessions to offer an in-depth look at our products - either at your site or one of our fully-equipped facilities located in Kitchener, Canada; Cypress, U.S.; Wokingham, UK; and Cologne, Germany. Session length ranges from one to four days.

## Interested in our instructor-led training?
