# Software Release Notes

---

## HS Series version 1.3.0

This document describes the changes from HS Series version 1.2.0 to version 1.3.0.

After updating the firmware, perform a **Factory Reset**. For more information on performing a **Factory Reset**, refer to *HS Series User Guide (P/N: 020-000883-XX)*.

## Affected products

The following products are affected:

- D13HD-HS
- D13WU-HS
- D13HD-HS China
- D13WU-HS China

## Purpose of release

The primary purpose of this software release is:

- Added the global version to the firmware so the firmware shows Global version v1.x.0.
- Added support for the new Flash IC on the main board.
- Extended the color wheel start up for low temperature environments.
- Added functionality so the screen turns black when switching input signals.
- Added fix for false DMD over temperature shutdown.
- Added the 13 Points test pattern for service.
- Added functionality that when Dynamic Contrast is enabled, it has a RealBlack effect for full black images.
