

Christie Managed Services

Keeping your display systems running

Deployment and support for visual displays

Christie® Managed Services is the industry's most trusted partner to **deploy, monitor and support** commercial visual displays. Able to deploy within the most complex infrastructures while proactively managing and monitoring in real-time, we can support every element of your commercial display systems, including thousands of projectors, displays, digital signage and all supporting technologies.

Using our industry know-how and qualified local field technicians, we drive a project through to completion to fully support your **projectors** and **digital display systems**. Why invest in development resources to manage or sustain your commercial visual display systems? With a decade of experience, backed by our company's 80 years of success in the industry, Christie Managed Services has the expertise to work for you.

CHRISTIE®

Technology-agnostic approach

As the industry leader in display and screen service installations, monitoring and maintenance, Christie has the capability to manage technology-focused, large scale, national systems. Whether you use cinema projectors, commercial visual displays or digital signage, only Christie Managed Services can deploy, monitor and support your every need to keep your display systems up and running.

Deploy

Our team will work with you at every stage of your rollout – from planning, procurement and logistics to pre-staging, integration and implementation.

Christie Managed Services offers best in class service, application and implementation engineers who can address your most complex infrastructure challenges.

And with a technology-agnostic approach, Christie supports a wide array of products from other manufacturers. So expect expertise for all of your projectors, visual displays, technology platforms, servers, switches and networking products, no matter who made them.

Trust Christie as your source for

Consultative partner approach

Design and pre-staging

Network design and implementation

Installation and integration

Call center and help desk support

Remote monitoring, reporting

Local service parts fulfillment

Monitor

Once your program is up and running, Christie will monitor and maintain the system through our state-of-the-art national US service Network Operations Center (NOC). That means reduced downtime and reliable, round-the-clock support for your business.

With a two-hour response time in the top 50 markets our NOC features a 24/7/365 technical help desk, remote monitoring and configuration management, preventative servicing, on-site emergency response and critical spares replenishment programs.

Network Operations Center (NOC)

Monitoring more than 47,000 devices in over 1800 locations

Scalable architecture

Support for any device or application accessed via a network

Customers include

Carmike Cinemas

Galaxy Theatres

Paramount Pictures

Pixar Animation Studios

Rave Motion Pictures

Regal Entertainment Group

Support

From cinema and post-production to on-screen and digital signage advertising, Christie Managed Services delivers a complete range of technical support to meet the unique technology needs of every organization.

Whether you need round-the-clock, 24/7/365 support, a Pay-Per-Incident plan or any level in between, Christie's comprehensive network of trained experts located strategically around the world can provide superior technical expertise for your business. So if you have existing technology needs or are in the early planning stages of a new installation, let the Christie Managed Services team be there every step of the way.

Parts replacement

Offering an end-to-end solution designed to optimize the management of your inventory and service parts distribution and returns process. It incorporates a hub-based central stocking location (CSL) and a global network of forwarding stocking locations (FSL) integrated through extensive information capabilities.
