LCD panels for impressive tiled video walls

LCD tiled video walls are ideal for control rooms as well as artistic and architectural displays of all sizes. With Christie®, you get the choice of three series comprising a variety of professional-grade LCD panels offering the perfect combination of performance, features, image quality and price.

Christie Extreme Series

The Extreme Series are high-performance 24/7 LCD panels with an extremely narrow 1.7mm combined bezel width and host of proAV features for the creation of impressive, near-seamless video walls. Featuring advanced panel matching, the brightness and color of each panel comes calibrated to help ensure uniformity across the video wall. The Smart Light Control feature provides consistent performance throughout its lifetime.

Christie Ultra Series

Producing stunning high-contrast and color-rich visuals and featuring a bezel-to-bezel width of 3.5mm, the Ultra Series lets you create stunning tiled video walls. Competitively priced and designed for long-lasting and reliable 24/7 performance, the Ultra Series is ideal for high-performance video walls.

Christie Performance Series

The Christie Performance Series are versatile, professional-grade LCD panels designed to offer an affordable and reliable option for video walls or standalone applications. Featuring 24/7 operation, narrow bezel-to-bezel width of 13mm and a host of ProAV functions, these displays offer a budget-conscious solution without sacrificing performance.

< Christie LCD displays helped bring Barneys New York window displays to life for an innovative retail shopping experience.

Christie LCD video walls: key features

- › Full HD resolution
- › Supports 4K resolution and scaling across video walls up to 10x10, multi-stream transport (MST)
- › Onboard power supply and remote option with some models
- › Portrait and landscape orientations supported
- › 24/7 runtime
- › Brightness options include 500 and 700 nits
- › 49" and 55" sizes available
- › Full range of business features
- › 3 year parts and labor limited warranty

Remote power

The Christie Extreme Series is available with optional remote power via external AC-DC hot swappable supply modules. Built-in SNMP monitoring ensures that display status information is available.

Brilliant large-format displays

Make a big impact with Christie's large-format LCD displays. Available in a range of sizes, these discrete LCD panels are perfect for applications such as meeting rooms, classrooms, corporate lobbies, digital signage and more.

Christie Access Series

The Access Series are budget-friendly, plug-and-play displays with professional features such as a 4K UHD resolution, OPS slot, USB playback and 16/7 and 24/7 run-times. With an optional touch overlay, most Access Series models can provide an interactive solution for dynamic presentations, educational collaboration or engaging retail applications.

- › Available sizes: 55", 65", 75" and 86"
- › 4K UHD resolution for impeccable image quality
- › Feature-rich at an affordable price point
- › Choice of portrait or landscape orientation on select models
- › OPS slot for increased flexibility and integration ease
- › Backed by Christie support, service and warranties

Christie FHQ981-L UHD LCD display

When you want to make a really big impact, choose the Christie FHQ981-L. This 98" UHD display comes with a number of proAV features and is the ideal seamless display for meeting rooms and digital signage applications.

Service and support

All our LCD flat panels come standard with a three-year commercial warranty. For added peace of mind and to maximize uptime, Christie provides advanced exchange and on-site repairs during the first year of your warranty.

Processing and content management

Get the most out of your Christie LCD display by combining it with our powerful content management and processing technologies for a complete, integrated solution.

Christie Spyder

For large-scale video walls with extensive processing needs, the Christie Spyder is the most powerful and versatile multi-window processor available.

Christie Phoenix

Christie® Phoenix™ enables seamless access and control of audiovisual data from virtually anywhere, through a single, robust system. With Christie Phoenix EP, you can embed the same powerful processing of a Phoenix node directly into compatible Christie tiled video wall displays.

Christie Pandoras Box

Christie Pandoras Box comprises the award-winning family of hardware and software tools for real-time video processing.

Christie Terra

Built on standard SDVoE technology, Christie Terra represents an all-new AV solution enabling the transport, processing and control of audiovisual content, including 4K@60Hz video formats, over 10G Ethernet networks.
