---

When installing digital cinema equipment, maximize your available space with the next generation of Christie’s pedestal, for the most secure projector installation, easy visual data monitoring and management, and convenient equipment storage and access.

Cost-effective versatility and safety, featuring adjustable stand height to suit varying port holes, easy to move and position projector with casters, and secure projector installation with four foot-lock brackets.

Delivers streamlined workflow and space requirements for equipment with up to 30 RU of rack space (12 RU with Lamp Power Supply (LPS) installed) and can be configured into a side-rack mount option as well.

Engineered specifically for Christie Solaria™ Series 2 projectors, the new Christie pedestal provides easy power cable storage and access resulting in efficient and safe work environments.

Underwriters Laboratory (UL) tested for high performance and secure projection workflow.

For additional safety easily secure the four projector feet
Conveniently store the light power supply (LPS) inside the rack.
