

END-OF- PRODUCTION

CP2415-Xe, CP2420-Xe, CP4420-Xe

On October 31, 2026, the following Christie CineLife+™ Xe projectors reached end-of-production: CP2415-Xe, CP2420-Xe, and CP4420-Xe.

Xenon illumination built the foundation of digital cinema projection and for more than 20 years, Christie® has championed the tried-and-true workhorse of cinema and continued to manufacture these projectors until the industry was truly ready for a full transition to laser.

With the introduction of Christie Phazer™ RGBH projectors, a worthy successor to Xenon has finally reached the silver screen.

Product name	Replacement products
CP2415-Xe 127-013105	CP4415m-RGBH 153-035109
CP2420-Xe 127-012104	CP4420m-RGBH 153-036100
CP4420-Xe 129-019101	CP4420m-RGBH 153-036100

We understand that this change may affect your current and future plans. To ensure a smooth transition, we'll continue to support these CineLife+ Xe models for seven (7) years from the end-of-production date until October 31, 2033 while parts are available.

If your projector is still under a standard or extended warranty, you'll continue to receive support for the applicable warranty period.
