Spyder X20/X80 Loyalty Rebate Promotion

– Terms and Conditions

Period and territory for the promotion

- The Spyder X20/X80 Loyalty Rebate Promotion is valid from **October 1, 2026, through January 15, 2027** (the “Promotion Period”).
- The Promotion is available to eligible end users located in the **U.S. and Canada** (the “Territory”).

Definition of end-user for the X20/X80 loyalty rebate promotion

- For purposes of the Spyder X20/X80 end-user loyalty rebate promotion, an “end user” is a company that has purchased one or more Christie X20 and/or X80 frames for its own use: (i) from a Systems Integrator or (ii) from a reseller that purchased qualifying Christie products through an authorized Christie distributor.
- An end user also includes a rental and staging provider that purchased one or more Christie X20 and/or X80 platforms directly from Christie or any authorized partner. For purposes of this promotion, a “rental and staging provider” is a company primarily engaged in leasing or renting electronic information display products to third parties for short-term or long-term use.
- To qualify, rebates (in the form of X20/X80 authorization numbers) must be reflected on registered and approved opportunities. Rebates cannot be applied after a registered and approved opportunity has been shipped or invoiced by Christie, whichever is the first to occur. Upon a showing of exceptional circumstances on a case-by-case basis, Christie may, in its sole and absolute discretion, honor a rebate to an end-user that was not reflected on a registered and approved opportunity.

Rebate qualifying products

Subject to Christie validation, the following Christie products are eligible for the end-user loyalty rebate promotion:

Eligible Product	Part Number
Spyder X20-1608	120-052108, 120-064101
Spyder X20-0808	120-053109
Spyder X80 platform	900-100276

Registration and validation of X20/X80 serial numbers; issuance of rebate authorization numbers:

- To participate, an end-user must submit the serial number for each qualifying Spyder X20 frame or Spyder X80 platform through the Christie registration page.
- A trade-in or return of the qualifying Spyder X20 or Spyder X80 is not required.
- Christie will review the submission and, if approved, issue one or more rebate authorization numbers. Christie’s validation decision is final. An authorization number does not guarantee opportunity approval, product availability, pricing, credit approval, or order acceptance.
- There is no limit to the number of qualifying Spyder X20 or Spyder X80 serial numbers an end user may submit for validation or how many rebate authorization numbers may be held, provided that each serial number is independently verified by Christie and meets these terms.

Rebate benefit

- For each approved Spyder X20 serial number, the end user is eligible for four \$2,000 rebate authorization numbers. Each X20 rebate authorization number may be applied to the purchase of one new eligible Spyder-S frame on a 1:1 basis (i.e. four rebate authorization numbers may be used to purchase up to four Spyder-S frames).
- For each approved Spyder X80 serial number, the end user is eligible for up to six separate \$2,000 rebate authorization numbers, for a maximum benefit of \$12,000 per approved Spyder X80 frame. Each X80 rebate authorization number may be applied to the purchase of a new eligible Spyder-S frame on a 1:1 basis (i.e. six rebate authorization numbers may be used to purchase up to six Spyder-S frames).

- For the avoidance of doubt, no more than one \$2,000 rebate authorization number may be applied to a single qualifying Spyder-S frame.
- Each rebate authorization number constitutes a purchase discount only on a registered and approved opportunity. Rebate authorization numbers are not cash, have no cash, credit, refund, or trade-in value, and may not be transferred, assigned, sold, exchanged, or redeemed for cash or anything of value.

Spyder-S products for which rebate authorization numbers may be applied as discounts from the purchase price:

The rebate may be applied only toward the purchase of a new qualifying Christie Spyder-S frame during the Promotion Period:

Part number	Description
179-001102-01	Spyder-S HDMI-4x4
179-002103-01	Spyder-S SDI-8Ch
179-003104-01	Spyder-S DP-4x4
179-004105-01	Spyder-S SFP-8Ch

The rebate authorization number does not apply to accessories, freight, insurance, taxes, duties, financing charges, services, special handling, or other non-frame charges.

Redemption and fulfillment of end-user rebate authorization numbers

- The end user must provide its valid rebate authorization number(s) to its Christie Systems Integrator or reseller partner before the applicable Spyder-S order is quoted or submitted to Christie for deal registration and approval.
- For each valid rebate authorization number submitted with a qualifying order, Christie will reflect a separate \$2,000 rebate line item on the applicable quote to the Systems Integrator or reseller partner. The Systems Integrator or reseller must pass the full \$2,000 rebate savings through to the eligible end-user as a discount on its quote or invoice for the corresponding Spyder-S frame.
- Rebate authorization numbers may be used only by the end-user for whom they were issued and only for a qualifying Spyder-S purchase made during the Promotion Period. Unused authorization numbers shall expire at the end of the Promotion Period and shall have no value after expiration of the Promotion Period.

Cancelled, returned, unpaid, fraudulent, or otherwise ineligible orders do not qualify. Christie may reverse or recover a rebate applied in error or where the related order or submission is later determined to be ineligible.

End-user loyalty rebate fulfillment

- When an end-user submits a valid X20 or X80 rebate serial number along with a qualifying Spyder-S order, the Systems Integrator or reseller partner must pass the full \$2,000 rebate savings per qualifying Spyder-S frame to the end user.
- An eligible rental and staging provider that purchases qualifying Spyder-S frames directly from Christie or through any authorized reseller partner may apply its Christie-issued X20/X80 rebate authorization number(s) to its order. For direct Christie purchases, the applicable \$2,000 rebate deduction for each valid authorization number will be reflected as a separate line item on Christie’s quote. Authorization number(s) must be submitted before the applicable order, or any portion of that order, has shipped or been invoiced by Christie, whichever occurs first.
- In order for the end-user to benefit from the loyalty rebate, such Christie-issued rebate authorization number must appear as a separate line item on its quote, reflecting the \$2,000 deduction for each valid rebate on the quote submitted by the Systems Integrator or reseller partner.
- The Systems Integrator or reseller partner must reflect the same rebate amount in its quote or invoice to the end user. The Systems Integrator or reseller partner shall hold Christie harmless from any end-user claims for approved rebates not fully passed along to end-users.

CHRISTIE®

- End-user rebate eligibility, serial number validation, and all other rebate requirements are subject to the separate Spyder X20/X80 end-user loyalty rebate promotion terms and conditions at christiedigital.com/spyder-s-rebate.
