
Software Release Notes

Phoenix Control Package for Crestron r3

This document describes the initial release.

Affected products

- Christie Phoenix control package for Crestron.

Purpose of r3 release

- Providing a new software package, Christie Phoenix Crestron Control Package, that simplifies the effort required to create custom interfaces for managing a Phoenix system. This programming module is used with Crestron control systems. The package can be downloaded from the Phoenix page on the Christie web site.

Prerequisites

- Phoenix Controllers must be running Phoenix software v1.6.0 to implement this software package.

Upgrade Instructions

None.

Known Issues

None.

Technical Support

Control system programming and implementation of the control package is supported by trained, authorized control system programmers. Christie Phoenix support is available:

North and South America: +1-800-221-8025 or Support.America@christiedigital.com
