
Software Release Notes

Christie Conductor version 1.0

This document provides the notes and known issues for the initial release of the Christie Conductor product suite.

Affected products

The following products are affected:

- Boxer
- Crimson
- Christie SST
- 4K40-RGB
- Christie Eclipse

Purpose of release

Christie Conductor is a Windows based application to control and monitor up to 256 projectors.

Some main features are:

- Power on/off multiple projectors
- Shutter open/close multiple projectors
- Update multiple projectors with new firmware
- Interrogate multiple projectors
- Turn test pattern on/off on multiple projectors
- Send serial calls to multiple projectors

Known issues

This release of Christie Conductor contains the following known issues:

- The **SHOW PROJ ID** button sometimes must be pressed twice to display the ID.
- The **SHOW PROJ ID** function will not work on projectors that have the OSD (On Screen Display) turned off.
- During an upgrade, the **CANCEL** button must be pressed twice to cancel all of the projectors.
- The **Network Scan** feature may not always detect all projectors on the network.
