
Software Release Notes

HS Series 2K version 1.5.0

This document describes the changes from HS Series 2K version 1.4.0 to version 1.5.0.

If your projector has a firmware version older than version 1.4.0, after updating the firmware, perform both a factory and network reset. For more information regarding the reset, contact Christie Technical Support.

Affected products

The following products are affected:

- D16HD-HS
- D16WU-HS
- D20HD-HS
- D20WU-HS

Purpose of release

The primary purpose of this software release is:

- Added support for new Christie models.
- Improved ILS functionality.
- Enabled the Color Uniformity function.
- Improved VGA signal compatibility.
- Improved Twist functionality.

Known issues

This release of HS Series 2K contains the following known issues:

- When using an existing configuration on Christie Twist/Mystique and you are prompted to clear the test patterns, the projector may clear the test pattern regardless of the given response.
- The side panel controls for focus adjustment do not work if an internal test pattern is displayed.
