Learning how to access the user interface (Remote UI) when the projector does not have a touch panel controller.

1. To display the IP address, press and hold the marriage button on the projector for 5-25 seconds.
   To reset the projector to the default IP address, press and hold the marriage button for 30 seconds.

2. In a browser on a computer connected to the same network as the projector, navigate to the IP address of the projector.
   The default IP address of the projector is 192.168.206.110 and the subnet is 255.255.254.0.

3. Log into the Remote UI.
