
Software Release Notes

Christie Twist 2.9

This document describes the new features, known issues, and fixed issues for this release of Twist.

New features

The following are new features and enhancements included in this release.

- Added support for Christie Griffyn projectors (main software version 1.1.0 or later).
- Added support for projector-centric blends where the screen file has forward and/or up axes that do not match Mystique's defaults or where a scale factor is applied.

Known issues

The following are known issues in this release.

- If using Twist 2.8 or earlier, or a twist file generated from Mystique 2.4 or earlier, blends generated in Mystique may not match those generated in Twist when using projector centric blends.
