# Software Release Notes

---

## Christie 4K7-HS/4K10-HS version 1.6.0

This document describes the changes from Christie 4K7-HS/4K10-HS version 1.5.0 to version 1.6.0.

If your projector has a firmware version older than version 1.5.0, after upgrading the firmware, perform both a factory and network reset. For information regarding the reset, contact Christie Technical Support.

## Affected products

The following products are affected:

- Christie 4K7-HS
- Christie 4K10-HS

## Purpose of release

The primary purpose of this software release is:

- Fixed a 3D mode screen flicker issue.

## Known issues

This release of Christie 4K7-HS/4K10-HS contains the following known issues.

- When using an existing configuration on Christie Twist/Mystique and you are prompted to clear the test patterns, the projector may clear the test pattern regardless of the given response.
- If Christie Twist, Mystique, or an external software script is used to power on the projector at the same time, the projector may remain in a warming up state.

*Workaround:* AC power cycle the projector and only power it on from a single application, side panel controls, or IR remote.
