
Software Release Notes

Korus Series version 1.3.0

This document describes the changes from Korus Series version 1.1.0 to version 1.3.0.

Affected products

The following products are affected:

- 4K1400-KS
- 4K1400A-KS
- 4K1000-KS
- 4K1000A-KS

Purpose of release

The primary purpose of this software release is the following:

- Added the Efficient (CECP) mode to fulfill the new CECP/CEL standard for China.
- Updated the communication port settings and added (NET+PORT value) read/write commands.
- Fixed an issue where the projector would not retain the HDR and Dynamic Contrast settings.

Known issues

The following is the known issue in this release.

- When a 3D input source is in use with the Picture Settings set to User mode and the hot key is mapped to Picture Settings, the hot key cannot be used to switch from User mode to 3D mode.
Resolution: This issue will be addressed in the version 1.4.0 software release.
