CDXchange at a glance

Years 1

If Christie technical support determines that an eligible projector requires replacement under the CDXchange program during the first year of ownership, Christie will ship a new replacement projector.

Alternatively, if you are required to keep the original projector, we'll provide a loaner projector while the original unit is repaired and returned.

Years 2–5

If Christie technical support determines that an eligible projector requires replacement under the CDXchange program during year 2 through 5, Christie will ship a factory refurbished replacement projector.

If you must keep the original projector, we'll provide a temporary loaner projector while the original unit is repaired and returned.
