

CHRISTIE[®]

University

As an AVIXA Renewal Unit (RU) Provider, Christie demonstrates its commitment to providing quality education and training for audiovisual professionals, including Certified Technology Specialist™ (CTS®) holders and the specialized designations CTS-D (Design) and CTS-I (Installation).

Christie has submitted over 25 courses to the AVIXA independent Certification Renewal Committee for their approval to provide learning opportunities for CTS holders for their continued professional development

CTS RENEWAL IS EASIER THAN EVER

All levels of CTS certifications are awarded for three years. To maintain and to renew your certification, you need to accrue 30 renewal units (RUs) through continuing education during that period.

After completing a Christie RU-approved course, you will receive a certificate of completion from Christie.

Upload your certificate to your online transcript by logging into the AVIXA training catalog at login.avixa.org and select the CTS Transcript tab. This is a great way for you to keep track of all of your courses, making renewal easier than ever.

ABOUT THE CERTIFIED TECHNOLOGY SPECIALIST CREDENTIAL

AVIXA is the Audiovisual and Integrated Experience Association™ representing the audiovisual industry. AVIXA's Certified Technology Specialist, Certified Technology Specialist – Design, and Certified Technology Specialist – Installation are the only audiovisual certification programs accredited by the International Organization for Standardization's (ISO) United States representative, the American National Standards Institute (ANSI). Accepted by the U.S. Veterans Administration for reimbursement under the Montgomery G.I. Bill, AVIXA certification programs are designed to establish and maintain widespread credibility for the audiovisual industry and the professionals who perform the work.

Christie AVIXA CTS Renewal Units

Course	CTS	CTS-D	CTS-I	Type
