Long-lasting brightness and color. Rock-solid reliability.

Take on any large venue or staging event with the Christie® Crimson Series of high-performance 3DLP® laser projectors. Built tough to withstand the rigors of demanding, high-use applications, Crimson Series projectors offer omnidirectional operation and give you the confidence to repeatably ship, handle and install. Featuring an IP5X sealed, solid-state laser light source, Crimson projectors provide years of reliable, low-cost and virtually maintenance-free operation.

With Christie BoldColor Technology, these high-brightness projectors produce big, bright and intensely colorful images for amazing visual experiences. Add to this the ultra-fast processing of Christie TruLife™ electronics, built-in Christie Twist™ and compatibility with HDR10 and Christie Mystique™, you can build out a powerful solution that works as needed, when needed. Benefit from the time and cost savings that come with reliable and long-lasting performance.

Key features:

- › **User-inspired interface** – On board touch screen for simplified user setup and operation
- › **BoldColor Technology** – Proprietary enhanced color performance over standard laser phosphor projection
- › **Rugged design** – For shipping and repetitive installation handling confidence
- › **IP5X-rated light source and DMDs** – Keeps out dust and other contaminants
- › **Advanced electronics** – Christie® TruLife™ electronics for ultra-fast processing up to 60Hz
- › **Blend and warp** – Christie Twist™ built-in for quick and easy multi-projector setup
- › **Seamless integration** – Compatible with Christie Mystique™ to simplify the design, installation and maintenance of complex projection setups
- › **Fully omnidirectional** – Unrestricted design and installation flexibility
- › **ILS lens compatibility** – Designed to work with existing Christie M and J Series lenses for added cost savings and versatility
