

Phoenix Retrofit Kit

Enhances Performance and Lamp Life for Older Christie Consoles

Christie's Phoenix Retrofit Kit (PRK) is designed to upgrade older Christie consoles (prior to 1980) to the latest technology in Xenon optical systems.

By installing the PRK in Christie CHF and CH consoles, light output is dramatically increased by over 400%. As an added benefit, the "plenum" design of the PRK allows more uniform cooling of the Xenon bulb. Better cooling will increase the life and performance of the bulb.

The PRK incorporates the same computer generated optics found in the current Christie SLC console. The reflector design maximizes the output of the Xenon bulb, providing the brightest and most uniform light pattern available today.

The PRK can be installed by a trained technician in just a few hours. The old reflector and optical bench are removed and the new optical system installed. All original wiring, existing ignitor, ammeter and blower are retained. Additionally, a new instrument panel is provided complete with switches and elapsed time meter. Detailed installation instructions are also included with each kit.

The Christie Phoenix Retrofit Kit is a simple and inexpensive way to rejuvenate older Christie consoles, thereby extending the life for many years to come.

- Increased light output by over 400%
- More uniform cooling of Xenon bulb for increased lamp life
- Detailed installation instructions included with each kit

APPLICATIONS

- Cinema/exhibition
- Post-production/film

CHRISTIE
Project. Present. Perform.

Phoenix Retrofit Kit (PRK) • Specifications

Shipping Weight and Dimensions

- 50 lbs, 27" L x 23" W x 17" H box containing, 1-plenum kit, 1-control panel, 1-set switches/timer, 1-base plate

Available for Upgrade

- Utilizes all existing wiring, ignitor and blower
- Replacement parts readily available
- Extends useful life of console for many years
- Extended Xenon bulb life through increased and efficient cooling
- Potential ability to downsize Xenon bulb requirements

PRK 1000

- 1000W
- Utilizing CXL-10 Xenon lamp

PRK 2000

- 2000W
- Utilizing CXL-20 Xenon lamp (may use CXL-16S-consult factory for bulb adapters)

PRK 2500

- 2500W
- Utilizing CXL-25 Xenon lamp

FEATURES

- Upgrade with the latest control panel, featuring push button controls and digital timer.

- Complete plenum, with patented 3-axis bulb adjustment mechanisms.

- Use with Christie HTP lamps for maximum light output and extend the life of your lamp.
