

LET'S

Are you a peak performer?

Get hands-on learning you can trust

CHKISTIE[®]

University

GAIN PRODUCT KNOWLEDGE FOR PEAK PERFORMANCE

Through Christie® University, you have access to a suite of courses related to product performance, operations, and maintenance. Each course will help you maximize the value of your investment in our high-quality projection solutions and display technology.

Certification programs and courses

Learn about the latest Christie products and services while earning Certified Technology Specialist (CTS) Renewal Units (from AVIXA). We offer a complete catalog of courses and certification programs, with more than 100 courses covering everything from basic product information and technology, to installation and maintenance, to in-depth technology reviews.

In-class training

Christie University offers a flexible learning environment with both online and instructor-led training. Our instructor-led classes are hands-on, providing an in-depth look at products with the guidance of a Christie product expert. The in-class courses are 1-4 day sessions in fully equipped facilities. These courses provide a great opportunity to share with peers and learn from experts.

Knowledge sharing with experts

When you choose Christie products, you are choosing the best. Christie University offers courses to help you get the most out of your Christie products while supporting your professional development. Christie University taps into our in-house and industry experts to provide you with the most authoritative resources. Our course offering is constantly reviewed and updated by subject matter experts to ensure you can keep pace with the changing technology and environment.

eLearning courses

eLearning courses are convenient and accessible, covering a full range of products. The eLearning courses are short, each taking less than 45 minutes to complete. You can also track your progress, and when you log back on you can start immediately where you left off. eLearning courses are available 24/7. A sample of our product training videos can be found under the 'Christie University - Product Training' section of the Christie Digital YouTube channel: youtube.com/christiedigital. Many programs blend both in-class and online learning to provide an integrated experience.
