How to enroll in an eLearning course

ChristieU offers you over 100 eLearning courses and videos. You can search for courses using the search bar (next to the ChristieU logo), or via the Catalogs menu.

When you find a course you want to take, on the next page under the Actions menu, click “Enroll as E-Learning”.

The page will show you the number of units in the course. Note that some courses only have one unit, while others have multiple. In this example we have two units. Click on the first one to continue. The course will open in a new window. You must keep both the course window and the main ChristieU window open at the same time to ensure that your completion record and score are recorded to your profile.
