

# PANDORAS BOX NET LINK

# Connect. Switch. Calibrate.

Convert a great number of external inputs into network data with the Christie Pandoras Box® NET Link product family. Each NET Link unit can be equipped with up to 2 modules that you can freely configure.

## Flexible connections to meet your needs

An important role NET Link products play is to enable connections between switching relays, sensor input/output, and Widget Designer control software, which allows you to equip and configure NET Link products in many ways to meet your specific project needs.

Whether inside a theatre, a museum, or as part of a cruise ship's immersive entertainment world, installations that feature NET Link can be made both cost-effective and easy-to-maintain on a 24/7 basis.

## Here's what NET Link products can do for you

You can use NET Link products to read industrial sensor data for screen-tracking scenarios, or to know an object's position.

NET Link can detect triggers like buzzers and flip switches, read voltage values for various interactive installations, and switch relays to trigger external devices.

Use NET Link to set up fixed projection installations in a way that allows for exceptionally easy on-the-fly calibration that even non-specialists can operate.

One of the most innovative applications is to use the Calibration fiber input module as an ingenious, marker-based calibration device to measure projected images. It's a reliable and easy way to recalibrate images when projectors move.

# Available NET Link modules

## Analog input modules

- › 8x Calibration Link fiber input - 157-135100-01
- › 8x 0-5V input, external power - 157-137102-01
- › 8x 0-5V sensor input, internal power - 157-136101-01
- › 8x 0-10V input, external power - 157-138103-01

## Digital input modules

- › 8x 12V relay input - 157-139104-01
- › 8x 24V relay input - 157-140106-01
- › 4x Encoder input - 157-142108-01

## Digital output modules

- › 8x 48V, 4A relay output - 157-141107-02

## NET Link Specifications

- › W x H x D: 6.7 x 3.3 x 4.8" (172 x 85 x 121mm)
